FULLSTACK DEVELOPER

PROFILE

Frontend Developer with practical experience in HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, PHP, and MySQL. Built a complete HireHub project and other responsive websites to improve my web development skills. Currently studying Web Development at Aptech. A quick learner who enjoys building clean, responsive, and user-friendly websites while continuously learning new technologies.

PROJECTS

HireHub Web Application

PHP · MySQL · HTML · CSS · JavaScript — http://job-portal.infinityfreeapp.com/

- Built a full-featured, multi-role HireHub supporting Admin, Employer, and Applicant roles using PHP and MySQL.
- Implemented secure user authentication with hashed passwords and role-based access control.
- Developed an Employer Dashboard to post/manage job listings and review, accept or reject applications.
- Developed an Applicant Dashboard for profile building, CV upload, and job applications.
- Built an Admin Panel to manage users, categories, job postings, and applications.
- Designed a fully responsive, professional UI with a consistent design system across all pages.
- Added account recovery features including Forgot Password and Change Email.

Wonders of the World

HTML · CSS - JavaScript — https://umarbuild.github.io/wonders-of-world/

- Designed and developed a responsive static website showcasing the world's most famous landmarks.
- Focused on clean layout, typography, and cross-device responsiveness.
- Hosted and deployed live using GitHub Pages.
